LANGUAGES

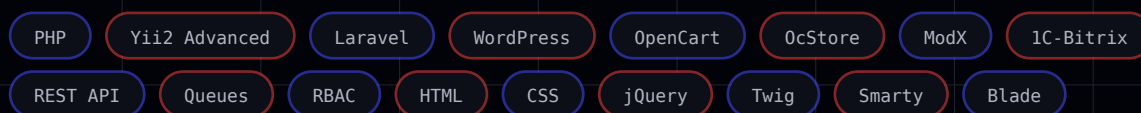

Ukrainian, Russian - native proficiency

Professional summary

Web developer with eight years of commercial experience. I specialise in PHP, Yii2 Advanced, Laravel, WordPress and the OpenCart ecosystem. I build websites, internal services, analytics dashboards, REST APIs and integrations with CRM, payment, logistics, billing and LDAP systems.

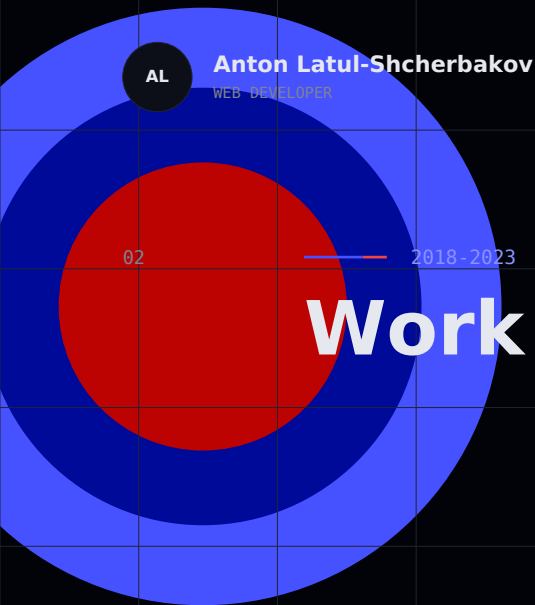

I combine development and infrastructure: Nginx, PHP-FPM, server control panels, mail systems, CI/CD and production environments. I work with both new products and complex legacy projects.

Competencies

SERVERS AND INFRASTRUCTURE

Mint, CentOS, Ubuntu, Manjaro, AlmaLinux, CloudLinux and Windows Server; AlmaLinux + CloudLinux + DirectAdmin; aaPanel, Plesk and DirectAdmin; Nginx, Apache, Cloudflare, AWS (basic), SSL, DNS, mail servers, CI/CD and GitHub Actions; RadioBOSS, Icecast and a custom web-based station management interface.

Work experience

2018-2019

SomeGalers

JUNIOR WEB DEVELOPER

Themes for WordPress, OcStore, ModX and OpenCart.

2019-2022

KDTeam

MIDDLE PHP DEVELOPER

Themes and plugins for WordPress, OpenCart and OcStore, 1C-Bitrix sites, API integrations and specialised automotive-parts stores on Laravel and IRBIS.

2022-2023

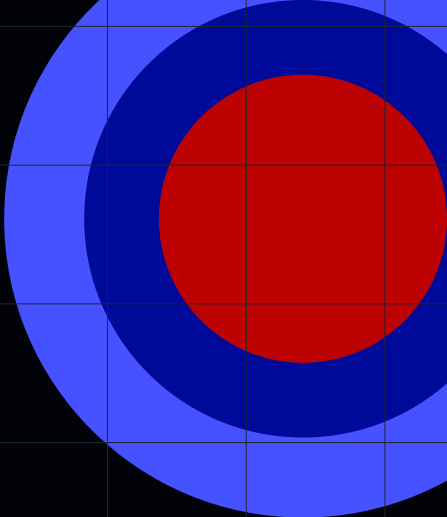

Bambuk

MIDDLE PHP DEVELOPER

WordPress websites, themes, plugins, integrations and REST APIs. Built an OOP/RBAC customer-account plugin.

Work experience

2023-2025

Adev

MIDDLE PHP DEVELOPER

OpenCart, OcStore, WordPress, ModX, TYPO3 and 1C-Bitrix projects. Internal Laravel audit services, mail servers and deliverability configuration.

2025-present

TENET

MIDDLE PHP DEVELOPER

Yii2 Advanced, internal audit and analytics dashboards, mobile REST APIs, billing and LDAP integrations, server administration, queues, email and push notifications.

Project experience

HIGH-LOAD / BIG DATA

01

Codyrocker

A page-generation plugin for large hierarchical datasets. Each run processed 5,000+ records using chunks, the Transients API and resource control.

E-COMMERCE / YII2

02

Premabrand

A Yii2 Advanced online store integrated with Nova Poshta, KeyCRM and WayForPay. The client supplied only the design; I handled everything from server setup to technical SEO.

SECURITY / LEGACY

03

Sprayer24

Recovery and malware cleanup of an outdated 1C-Bitrix store. Vulnerabilities were closed through targeted safe changes because a full platform upgrade was not possible.

STREAMING / WINDOWS SERVER

04

Internet radio platform

Internet radio on Windows Server: RadioBOSS as the broadcast source, Icecast streaming and website audio delivery, plus a custom backend and web-based station management interface.

EXPECTED SALARY: FROM \$2,000

Ready to discuss an opportunity
